

### Energy-Saving Curtain

- These curtains make it easy to see the outside from inside a room, but difficult to see inside from outside.
- masa's metal films absorb infrared rays and block ultraviolet ray.
- The stainless steel also prevents the curtains themselves from deteriorating.
- Thanks to stainless steel's ability to absorb infrared rays, these curtains are able to block out sunlight, make lower room temperatures, and reduce electrical expense for air conditioning.

### 省エネカーテン

- ミラー効果で外から見えにくくします。
- 紫外線・赤外線透過を抑えます。
- カーテン自体の劣化を防ぎます。
- ステンレスの赤外線吸収効果により太陽光を遮断し、夏場の室内温度を低く保ち、エアコンの電気代を助けます。
